

QUALITY METAL OUTDOOR FURNITURE

KEY PRODUCT FEATURES

- High quality products designed and made in Italy.
- All-weather outdoor use.
- Made from strong 100% premium quality powder-coated steel.
- Frames treated using exclusive EMU-coat anti-corrosion process.

MATERIALS

EMU products are made in Italy from the highest quality materials using production processes certified to strict EU environmental standards.

All EMU steel products are treated to be weather-resistant with our exclusive EMU-coat anti-corrosion process, ensuring EMU products can be used outdoors all-year round.

1. Purification – frames are cleaned to remove any impurities that may impair paint adhesion.
2. Zinc coated – to seal frame, prevent oxidization and protect against rust.
3. Iron phosphate undercoat – increases paint adhesion and forms a highly anti-corrosive layer.
4. Electroplated primer coat – frames are electrochemically coated with a uniform paint film to further improve bonding and weather-resistance. This is the same process as used in the automotive industry.
5. EMU-coat polyester baked colour finish – frames are finally spray-painted with polyester powder coating which is then baked at high temperature resulting in a highly weather-resistant protective finish.

PRODUCT CARE

In order to keep your EMU furniture in good condition for a longer period of time, we recommend that you store it in an enclosed and dry area during winter, to avoid condensation and adverse weather conditions.

Before winter, and regularly every quarter if the products are used near the sea, we recommend that you clean the metal surfaces with warm soapy water, rinse with clean water and protect with a non-abrasive car wax.

Do not use ethyl alcohol or detergents which contain, even in small amounts, acetone, trichloroethylene or ammonia (or solvents in general).

GUARANTEE

EMU steel products are guaranteed for two years against structural or manufacturing defects not resulting from improper use or lack of maintenance, and against invasive and perforating rust not deriving from scratches or abrasions caused in use and which cannot be removed with normal cleaning and care.

To make use of the guarantee, please send us details and images of the defective product together with the sales receipt/proof of date of purchase. Emu Group S.p.A. declines any responsibility for faults and / or damages to product resulting from improper use and different to the function the products are intended for.
